County Pioneer Laid To Rest

Arthur Elmer Wakeley, aged 0 years, passed away at Mercy Hospital in Grayling, Tuesday night at 10 o'clock, October 25th, after a four-day illness due to a fall in his home.

Mr. Wakeley was born to Thomas and Sareptia Wakeley, March 13, 1866, in Erie, Pennsylvania. The family moved to Ottawa Lake, Michigan, when he was a small child, then moved to Crawford County in 1879, where he spent the remaining years of his life.

He was married January 9, 1888 to Harriet Beausom at the Methodist Church in Grayling. Mrs. Wakeley preceded her husband in death in May, 1949. He is survived by two sons, Thomas, of Moorestown, Arthur, Jr., and Mrs. Carl Madsen of Grayling. There are also surviving nine grandchildren and eleven great grandchildren.

Mr. Wakeley was one of the pioneers of thi[s] county. His family was among [the] first settlers

of the then newly organized Crawford county. On coming here they settled on the banks of the Au Sable river at the place known as the old Wakeley Bridge, which has since been rebuilt a little farther upstream. There Arthur grew up, hunting, fishing, farming and learning early the tasks of the lumberjack and river-driver. He has helped in many of the tasks that have brought about the various changes that have taken place in our community. He was familiar with about every job connected with lumbering, and also did blacksmith work. Later he found employment in the mills in Grayling. While thus employed his family lived here. But after a few years they moved back down river, this time to a farm about two miles from their old home. Here they resided until about 1928, when the property was sold to David Whitney of Detroit. For several years Mr. Wakeley was caretaker for Mr. Whitney at his summer home on the river. After this was sold to George Griffith, Mr. Wakeley made his home next to his son Arthur, Jr.

Funeral services were held at 2:00 o'clock Friday at the Michelson Memorial Church, the Rev. R. C. Puffer, officiating. Burial took place in Elmwood Cemetery, Grayling, the pallbearers being Ralph Redhead, Dan Babbitt, Norval Stephan, Donald Feldhauser, Wellman Vallad and Herbert Stephan.

JACK PINE'S STUMP

According to Bishop Sheen, unless some hard and fast laws are soon laid down to stop the rapidly changing definitions of good and evil, it won't be long until a wrong thing will be a right thing if it's done in a nice way.

—JP—

Hallowe'en has come and gone, but it sure seemed to STAY a long time. The kids, as a rule, don't know too much of the religious background of the occasion; to them it's mostly a time for Trick or Treat. But it goes too far. Time used to be when there was just ONE night of costumed begging, and the streets were filled with youngsters having a gay time. People stayed home Hallowe'en, safe in the knowledge that if they escaped mischief that night, the worry was over for another year. But NOW! For nearly a week, the kids were running the streets at night, creating problems, and putting an awful strain on the good will of the householders. There were children too young (and "children" too old) out too late at night for their own or anybody else's good. And you can't blame the kids. In the last analysis, it's the parents who allow their children to go Trick or Treating four or five nights in a row. It is always good to remember that the acts of any child, be they good or bad, are more a reflection on the parents than on the child.

EXPERIENCE: What you have left when everything else is gone.

—JP—

A little girl went to church for the first time, and after the service the minister asked her how she liked it. "Well," she answered "I liked the music a lot, but I thought the commercial was too long."

I see by the Free Press that Michigan State University will be come training headquarters for Chamber of Commerce and trade association officials. The National Institute of Organizational Management has voted to move the school from Northwestern University to East Lansing. Jack Pine feels that our own Chamber of Commerce should see what the course offers with a view towards sending a representative. Nobody, but nobody, knows all there is to know in this wide and everchanging field of local promotion.

—JP—

A BORE is a person who is here today ... and still here tomorrow.

A friend of mine, whose truthfulness has never been questioned reports the most improbable bow and arrow story Jack Pine has ever heard. Last week he was floating down the river in a canoe armed with a bow and arrow and looking for deer. Noticing a partridge along the bank, he took aim, drew back and let fly. The arrow pierced the bird right through the middle, which is nice shooting with any man's weapon. But the bird took off and flew away, arrow and all. He searched over an hour, but couldn't find either bird or arrow. He swears it's true, and I believe him. Along the same lines, the Conservation Department reports that a hunter brought a fox into the Roscommon Office to collect a bounty fee. He had shot it with a bow and arrow ... the first reported time a fox has been so bagged.

—JP—

I read in the Reader's Digest a United Press story from Mount Clemens to the effect that a woman called the police and reported that a youngster in a Davy Crockett hat was up in a tree and couldn't get down. An officer rushed to the scene and found a very indignant raccoon resting in the top branches.

—JP—

Arthur Wakeley has passed on. For 90 years his eyes viewed the world; Crawford County for the last 80. Few indeed are those who can recall Grayling's past. Fewer still are those who lived it. Arthur Wakeley was one of those people. Someone should write a story of Grayling's history, as seen through the eyes of Arthur Wakeley. It would be a great story, a rousing salute to Michigan history, and a proper tribute to a man who helped make that history.

St. Mary's Ladies Club Has Full Program

October has been a busy month for St. Mary's Ladies Club. Beginning on October 9th with the Holy Communion Sunday at St. Mary's church there were many in attendance. After mass Mrs. Thane Hendershot and Mrs. Edmund Rutkowski were on the committee to serve rolls and coffee to the ladies in the parish hall.

Then on Oct. 14 and 15, a successful rummage sale was held with Mrs. Theodore Visnaw, chairman, assisted by Mrs. Richard Lovely, Mrs. Susie Bouslay, Mrs. Alex Kornecky, Miss Marie Lovely and Mrs. Erwin Wales.

Tuesday evening, Oct. 18, saw a large crowd of ladies in attendance at the regular monthly meeting, presided over by Mrs. Bud Gould, president. Opening with the recitation of the Rosary, the business meeting followed together with Guild and committee reports. At this time Mrs. Manford McClanahan and her helpers received a big "thank you" for the fine job of cleaning the hall kitchen. Helping the chairman in this work were Mrs. Fred Bishaw, Mrs. James Duley, Mrs. Leslie Goss, Mrs. LeRoy Christian, Mrs. Joseph Cinciala and Mrs. Wilfred Laurant.

The program of the evening, which was in charge of the Altar Guild with Mrs. Harold Rasmussen as director followed and Mother Therisina, principal of St. Mary's School talked on "Life in the Convent." At the September meeting Rev. Fr. Joseph McKinney, professor at St. Joseph's Seminary, Grand Rapids talked on "Life in the Seminary" and both talks were very interesting. Mrs. Adolph Peterson gave some readings on foreign missions as the following Sunday would be Mission Sunday, and meeting closed with the "Memorare."

The remainder of the evening was spent playing games with prizes awarded to the winners, and Mrs. Larry McNamara won the penny prize. For the entertainment Mrs. James Duley, chairman, was assisted by Mrs. McNamara and Mrs. Leslie Goss, and these ladies were also responsible for the lovely Hallowe'en decorations. Sandwiches, fried cakes and coffee were served by Mrs. Harold Rasmussen, Misses Jean and Greta Rasmussen, Mrs. John Latuszek and Miss Anita Lozon, the refreshment committee.

The third and fourth grades, who tied for having the most mothers present received the library book award. A book is bought each month by the club for St. Mary's school library.

Mrs. Ralph Hoffman typed the stencils for program books that have been issued and distributed to the ladies.

Two committees were busy over the weekend one serving on the Hallowe'en dance that was held at the parish hall Saturday night, and the other for the Hallowe'en party given Monday evening for the children of St. Mary's school.

Vikings In Grid Final Friday

Meet Boyne City Under The Lights Here Seeking Second Place Tie

Outlast Pellston Hornets, 27 - 20, Last Friday

— Kolenda Studio Photo

Steve Jorgenson, number 48 drives into the Pellston end zone to score one of the points after touchdown in the Viking's 27 to 20 victory at Pellston last Friday. Don Roberts, number 31, Viking end comes up for a block at a Pellston defender.

The Grayling High Vikings seeking a tie for second place in the Northern Class C Conference meet the Boyne City Ramblers on the lighted football field at the Grayling Memorial Recreation Area at 8:00 p. m. this Friday night in the final game of the 1955 football season.

The Vikings nailing down third slot in conference play with a rough 27 to 20 victory over the Pellston Hornets there last Friday afternoon will seek to upset the favored Ramblers and draw up even with them in the loop standings. The Ramblers have shown terrific power this season, rolling over East Jordan last Saturday by a 45 to 6 count. The Vikings will have their hands full with this team that is not too big but very quick and coordinated.

Charlevoix with an easy victory over Gaylord last weekend assured themselves of at least a tie for first even if Boyne should defeat the Vikings this week. Gaylord was thus forced into the loop cellar where they will finish, a victory this week only pulling down some other team to share the basement with them.

Long runs by Gary Worden and Jim LaGrow again paid off for the Vikings at Pellston Friday. Worden rambled 77 yards the first time he carried from scrimmage to score. A pass play with end Mel Luter receiving made the score Grayling 7, Pellston nothing. Later in the period, a Hornet back raced 32 yards to score on a reverse and a pass play for extra point failed leaving Grayling leading 7 to 6.

Near the end of the first quarter, Worden carrying the ball from scrimmage for the second time, broke over center and raced 78 yards for the Viking's second touchdown A running play for the extra point failed and the score stood at 13 to 6 in Grayling's favor as the period ended.

On the first play of the second quarter, Jim LaGrow, Viking halfback who had replaced Lloyd Failing who was injured earlier in the game, slanted off tackle, broke to the center and raced from the Grayling 19 yard line for 81 yards and Grayling's third score. LaGrow swiveling nicely, threw off three tacklers on his run. Worden kicked the extra point and Grayling led 20 to 6. The remainder of the quarter was a seesaw battle with neither team threatening.

During the third quarter, Pellston scored their second touchdown on a pass play that was good for 55 yards. They ran over the extra point and the score stood at 20 to 13 in the Vikings favor. The Vikings then unlimbered their aerial game and a pass from Steve Jorgenson to end Luter was good for 30 yards and the fourth score for the Grayling eleven. Jorgenson ran the point in to make the score 27 to 13. Later in the quarter, Pellston scored from 2 yards out after a sustained march and ran in the extra point to leave the final score as 27 to 20. As the game ended, end Don Roberts made a circus catch of a pass while between two Pellston defenders that was good for 30 yards

Roberts was named as the lineman of the week as he stood out on defense stopping play after play on his side of the line. One of his tackles resulted in a Pellston fumble which Grayling recovered. His catch of the pass on the game's final play was but one outstanding bit of offensive play. His blocking all afternoon was near perfect. Worden running for 199 yards on 14 carries was the outstanding Viking back of the week on offense while Paul Berry playing both as a linebacker and a halfback was tops on defense in the Viking's second line of defense. Bill Kenyon who stepped from a halfback to quarterback post when Gary Parkinson had to drop football following a brain concussion suffered in the Mancelona game, turned in an excellent performance. Bob Carlson, Grayling tackle also turned in a terrifific defensive job in the Grayling forward wall.

Grayling rolled up 378 yards in total offense, 320 on the ground and 58 in the air. Pellston totaled 212 with 123 from their ground game and 89 by passing. Grayling made 7 first downs to Pellstons 5. Kenyon averaged 35 yards on kickoffs but didn't have to punt once. Pellston was forced to kick twice with an average of 28 yards. Pellston lost 55 yards in penalties while Grayling was penalized 60 yards.

Experts who predicted that Grayling would have a rough time with Pellston and that Worden wouldn't be able to run against the Hornets as he did against Mancelona, were shaken as Worden scored both times he first touched the ball. About a 60 degree heat Friday afternoon took a lot out of each team.

This week, the loop leaders, Charlevoix meets the Mancelona Ironmen with the Rayders almost sure winners. Gaylord tangles with the Harbor Springs Rams and it would seem, the Blue Devils will lose again. East Jordan meets the Hornets from Pellston who should prove too much for the Red Devils.

League Standings

Charlevoix	6	0
Boyne City	5	1
Grayling	4	2

Chamber Aids In Directory Preparation

Your Chamber of Commerce again is cooperating with Michigan Manufacturer and Financial Record in the preparation of the 8th Edition of the Directory of Michigan Manufacturers. The 480-page directory is revived and corrected every two years and the new edition will be issued next June. Its listings, all free, embrace all manufacturers in Michigan and show executives with titles, products manufactured, number of employees, year established, etc.

This year for the first time this directory is a part of the exhibits of the U. S. Department of Commerce in 26 International Trade Fairs held in major world cities. (Total attendance at the Fairs approximates 30,000,000). Keen interest has been registered in them and already arrangements have been made with the Department of Commerce to place copies of this new directory in all Fairs in which the Department participates next year. When the Fairs are over the directories are placed in the commercial libraries of the U. S. Embassies in the respective Fair cities. Here they are readily accessible for review by business men of foreign countries. Michigan firms interested in export will readily see the potentials here and the importance of accurate and fullest information in their listings.

If you are a manufacturer you are urged to contact your Chamber of Commerce secretary now to insure that your company is properly identified in this industrial guide for Michigan.

Two Men Arrested Now In Jail

Darrell V. Baisden, 36, of North Carolina was arrested last Friday by State Police on a charge of being drunk and disorderly. He appeared before Justice Art Clough the next day and pleaded guilty to the charge. He was fined $15 and $4.30 costs or ordered to serve a 15 day jail sentence. He elected to serve the time.

Elmer Hanover, 25, of Grayling was arrested Monday evening by the City Police on a charge of reckless driving. He was not carrying a driver's license at the time of his arrest. Hanover, who was released from jail only recently from a stay for simple larceny, appeared before Justice Clough Tuesday morning. It was discovered that Hanover had been driving with a revoked license for which he was fined $10 and court costs of $4.30. Federal Order To Govern Milk In North Michigan

By Les Hunter

Last Wednesday, October 26th, milk dealers of northern Michigan were called to Traverse City to meet with the newly appointed Milk Marketing Administrator for the northern area of the state. The purpose of the meeting was to explain the fundamentals of the order and the requirements of the filing of monthly reports with the marketing administrator.

The marketing order, readers will recall from previous articles, was the subject of several controversial hearings between milk dealers and farmer producers throughout northern Michigan. The marketing order which was proposed by the Michigan Milk Producers Association, first came up for hearings in Traverse City in September of 1953, under the guidance of representatives of the Department of Agriculture from Washington, D. C. Hearings were again held in the fall of 1954 at Traverse City. Finally the proposed milk marketing order was brought to a vote this fall.

In order for it to become a law, the marketing order had to receive a three-quarters favorable vote of the milk producers. However, it is reported by good sources that milk producers in this and several other northern Michigan counties were not given the opportunity to vote on this vital issue. The Michigan Milk Producers Association were reported as voting in a block in favor of the order through their membership. It is not known how many, if any, of the milk producers in Crawford County are members of the association.

Basically the order regulates the price of milk paid to the dairy farmer. The cost of the operation of the administrator of the order's office expense must come from somewhere. It would appear that the cost of this extra governmental control would eventually come from the consumer of dairy products in this area.

The order became effective on October 16 in northern Michigan. It would appear that an increase in the cost of dairy products to you, the consumers would be shortly forthcoming. At this time, it is not known just how much the increase would amount.

Gulf's New Super-Refined

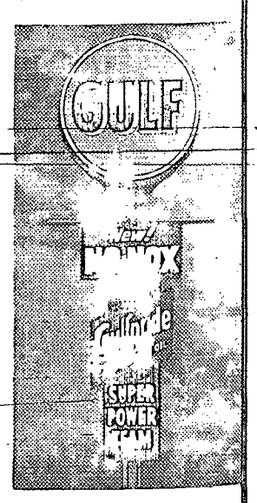

GAS-OIL TEAM

Gives more miles per gallon...

more miles per quart!

Gulf No-Nox burns clean

Here's proof: Note the black deposit on plate at left, caused by the "dirty-burning tail-end" of gasoline—the part Gulf refines out in making New Super-Refined NO-NOX. But see how clean new NO-NOX leaves the plate at right. Now—in your own new 1956 car—see how clean-burning NO-NOX can give you *more miles per gallon in the short-trip, stop-and-go driving you do most.*

Gulfpride Select works clean

Here's why: Most conventional oils are refined only to the stage shown in A. But New Gulfpride Select is further refined by the Alchlor Process—removing up to 15% more of the carbon-formers, in B . . . C contains the new super-refined oil that gives you *more miles per quart* because it has natural viscosity (body)—contains no artificial thickeners that break down in service.

REMEMBER: No gasoline alone can give you today's finest performance...no oil alone can give you today's finest protection. Get the new super-power GAS-OIL TEAM...

...rong Way . . .

It is again being proposed that any future federal ...ncome tax reductions be accomplished by raising the ...mount of the personal exemption—by $100 or some ...uch sum.

One effect of this would be to drop large numbers of ...axpayers from the tax rolls altogether. That might ...buy some votes, but it is morally and ethically wrong. It is still a fact that the people must support the gov...rnment—and that the government cannot support the people, save by taking the money away from them to begin with. Every person who receives income should pay some taxes, no matter how small.

The fairest and most constructive form of tax reduction would be percentage cuts—for all the income brackets, and for businesses a well.

Automation And Employment . . .

Secretary of Labor Mitchell states that automation is not causing unemployment. He adds that there are more people working than ever before and "automation is increasing the demand for skilled technicians."

This should surprise no one. Every technological advance in history has advanced, not undermined, the welfare and interests of working people. Automation is simply one more phase of the beneficient industrial revolution that began with the steam engine.

Best Buick yet

When better automobiles are built Buick will build them

IT COMES upon the heels of the most successful Buick in history—and beats it on every score.

In shimmering steel and solid sinew, it's Buick for 1956—and there's never been anything like it for pure automobile.

You get a good hint of what we mean when you take in its sweep-ahead styling—from the air-splitting prow of its V-front grille to the robust rake of its canted rear profile.

You get an even better hint when you open the doors and see the dazzle there.

But it's when you put this beauty to the city streets and the open highways that you learn the best of it.

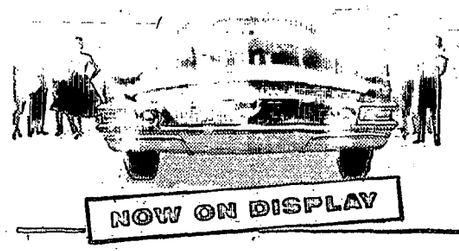

For here is performance without parallel. A new advance in Variable Pitch Dynaflow* goes airplanes one better—steps up your getaway in normal driving *without* flooring the pedal to switch the pitch. But when you do need that extra surge, it's there *instantly*—and in extra abundance.

The might of big 322-cubic-inch V8 engines in *every* Series brings new record high power to all Buicks—ROADMASTER, SUPER, CENTURY, and the bedrock-priced SPECIAL. And to handle such dynamic driving power, the whole rear end has been endowed with extra brawn and heft and solidity.

We could spread before you an acre of blueprints on the engineering gems that spark the spectacular performance and ride and handling and roadability of these great Buicks for 1956.

But you can get the full and magnificent story right now, at our showroom, in a face-to-face meeting with the best Buick yet—now on display, and setting a dazzling new pattern for 1956.

**New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.*

Bear Lake News

By Mrs. Mabel Dingman

Let's give women credit for being good sportswomen and good hunters. Last week we reported Betty Lifford got her deer and now we are pleased to report Mrs. Gilbert Symons, 4260 Fort Union Rd., Hamilton, Ohio, staying at Camp Arrowhead, with Fred Bromwell, guiding. Got her deer in the evening shooting it was the first year of bow and arrow hunting for her. The deer was shot through the lungs and found the following morning 65 paces from where it was hit. It was a doe weighing 96 pounds, dressed. Also Mrs. Symons just reported Sunday night that she caught two nice rainbow trout from Bear Lake. This is proof that women do not have to take a back seat for men nowadays.

Mr. and Mrs. Bill Lifford were up for the weekend with their two sons. Also with them were Bud Biell, Jack Hutchens, Mr. and Mrs. Vern McCloy and their daughter Carol. Carol is the present Junior Girls' National Archery Champion free style division.

Also visiting at Bear Lake this weekend were Mr and Mrs. Ralph Johnson. Mrs. Johnson claims to be Michigan's smallest mother. Anyone challenging this please write to Mabe, Dingman, Kalkaska, Mich. The Johnsons were celebrating their 23rd wedding anniversary. Their guests were Mr. and Mrs. Alfred Hirt and family.

This is not good news but some nice people moving away are Mr. and Mrs. James Frazier and twin sons. They are moving to Grand Haven where Mr. Frazier has been made manager of the Singer Sewing Machine store. They were weekend guests of Mr. and Mrs. E. Dingman.

Also we took a ride just at dark and saw five deer. The robins are getting worried about the weather, they seem to be in groups, ready to take off for the south, which we all wish we could do. So goodnight, see you next week.

At a special session of said Court held at the Court House in the City of Grayling, County of Crawford, 34th Judicial Circuit, this eleventh day of October, 1955.

Present: Hon. John C. Shaffer, Circuit Judge.

In the matter of the assignment for the benefit of creditors of Marius Hanson, doing business as the Bank of Grayling.

On reading and filing the petition of Bay Trust Company, as assignee for the benefit of creditors of Marius Hanson, doing business as the bank of Grayling, and the waiver of notice and consent of the Creditors Committee endorsed thereon, in which petitioner prays that the remaining assets of the above named assignor be sold at public auction in the manner and form provided by statute for conducting judicial sales or as may be ordered by this Court, and it appearing that the liquidation and disposal of the remaining assets, and the subsequent distribution of the proceeds realized, and the discharge of the assignee from its duties as such, is desirable, and would be for the best interests of the beneficiaries of the aforesaid assignment, and that the relief therein prayed for should therefore be granted.

On motion of Clark & Henry, attorneys for Petitioner,

IT IS ORDERED that the assets of the above named assignor still remaining in the hands of said assignee, as listed and set forth in Schedule A attached to said petition, be sold by petitioner or its duly authorized agent, in gross or in such parcels as may, in the opinion of the assignee, seem expedient, at public auction to the highest bidder, subject only to the confirmation of this Court, which shall be made by an "Order of Course" which may be entered, unless good cause to the contrary be shown, within eight days after the filing of the assignee's report of sale and the service of a copy thereof on the members of the Creditors Committee heretofore appointed in this cause; that the sale shall be held at the front door of the Court House in the City of Grayling, that being the place where the Circuit Court for the County of Crawford is held, at ten o'clock in the forenoon on Thursday the 1st day of December, 1955, and that notice of the time and place of holding such sale and a description of the property to be sold be given by the publication of a copy of this order together with a copy of said Schedule A in a newspaper published and circulated in said county, once each week for six successive weeks, and that a printed copy of said order and schedule be posted in three public places in the City of Grayling, that being the place such sale is to be held, and in three public places in the City or Township where any real estate or interests in real estate that are to be sold are located if such location is in a different township or city than the aforesaid place of sale.

IT IS FURTHER ORDERED that from all of the funds on hand after the receipt of the proceeds of said sale, petitioner pay and discharge any unpaid expenses of administration and that the balance of said funds be disbursed as a final dividend on all claims against said assignor that have not been fully paid and discharged and that a notice to the effect that the liquidation has been completed in this proceeding and that the accompanying remittance is the "final dividend" shall be sent to each recipient.

IT IS FURTHER ORDERED that petitioner as assignee, as aforesaid, upon completion of the disbursement of funds, as aforesaid, file its final account together with its petition for the approval and allowance thereof and its discharge from its duties as such assignee.

Work has begun in earnest at the Winter Sports Park. Last Sunday 12 men with axe in hand cut down all the trees in a certain area to get ready for some work that was to be done with some of the county road machinery. There are quite a number of men at work every day so that with the first cold weather and with plenty of snow recreational activities at the park may be enjoyed.

St. Ignace and the Soo are now connected by a continuous hard-surface highway. Contractors just finished the last 22 miles of paving. This is certainly a fine improvement to the highway system and now provides a highway to a place that almost every tourist wishes to visit. The Soo with its great locks and also its easy access to Canada is a magnet that draws visitors.

Louis Kraus was the little host to a Hallowe'en party of 12 boys and girls at his home last Saturday afternoon. The boys and girls spent the afternoon playing all sorts of Hallowe'en games, and Mrs. Kraus served a lunch which made the children realize that ghosts and goblins were just around the corner.

46 YEARS AGO

November 4, 1909

Dr. and Mrs. C. F. Underhill of Lovells were in the village Monday and Tuesday combining pleasure and business.

Mrs. Barney Kropp and her daughter came up from the farm the last of the week for shopping and a little visit with old friends.

Mr. and Mrs. E. O. Keeler were made glad by a visit from their niece, Miss Marie Keeler, of Bay City, from Wednesday of last week until Monday.

Rev. James Ivey and wife went to Marquette Monday for a visit with his mother. Mrs. Ivey will return this week and Mr. Ivey the next.

Miss Margaret Brink of Koplah, Wash., daughter of Mr. and Mrs. Arthur Brink, arrived here last week and will make her home with grandpa W. F. while completing her high school course in our school. As this was her childhood home she will not be among strangers and is welcomed by hosts of her girl friends.

Mrs. Rolla W. Brink is made glad again by the arrival of her sister, Miss Franc Smith, who will probably remain here for the winter.

Mrs. A. W. Canfield of Bay City has been the guest of her sister, Mrs. Jerome, since Saturday when she has been calling on old friends. If she sees them all we can expect to have her here with us at least until spring.

I. H. Richardson and wife and Ernest of South Branch have returned from their trip to the Northwest which they greatly enjoyed. They saw what they went for and are glad to be back in the best state in the union.

Five young ladies were enjoying the beautiful weather last Sunday by a drive behind Langevin's cream roadsters. While on Michigan Ave. one of the horses began kicking and was run into the telephone pole at C. Hanson's corner, which stopped them so unceremoniously that two of the ladies were thrown over the dash, but fortunately not seriously injured. The horses's leg was broken in the scrimmage so it had to be killed.

D. S. Waldron, a pioneer, and first Judge of Probate of this county, celebrated his 80th birthday last week all by himself. He had kept the date so secret that his friends had not even the pleasure of giving him a chivaree.

E. S. Houghton has commenced building the bridge at Lovells. Soon they will be able to cross the river on plank.

Miss Esther Kraus arrived on Thursday morning in Lovells and registered at the Underhill house.

A letter was received from Ray Owen stating that he arrived safely in southern California and was having the time of his life.

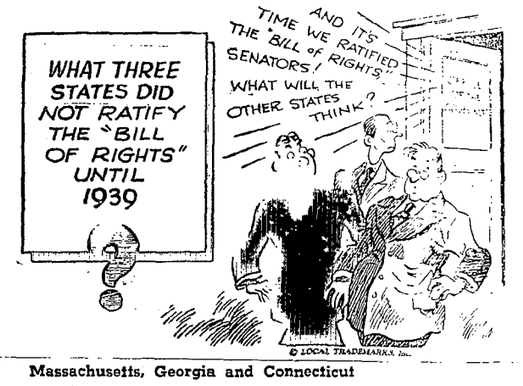

The "400" of Frederic were invited to E. J. Brennan's last Friday evening.

W. T. Lewis has bought Mrs. Webb's farm. Mrs. Webb has bought J. Brady's house in town and Brady has the Phil Moran house.

From where I sit ... by Joe Marsh

Last Word in Farm Machinery

Curly Lawson was first in this area to use one of those roadside vending machines. He's sold milk and eggs in one about a year now, and recommends them highly—but with reservations.

"Mine's the latest model," says Curly. "Built-in refrigeration unit—heater—an automatic sign turner-on for night. Takes any combination of coins."

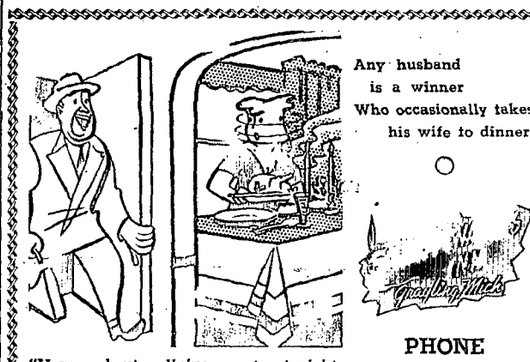

"However," he warned, "those machines aren't cheap to buy ... or operate. They run about $3500. If you're not on the main highway like I am—where lots of city people pass—you'd better stick to the old methods."

From where I sit, you have to admire Curly for his pioneering spirit. Of course, there's also plenty to be said for those who tend to stick to the old proven methods. People's ideas differ on the subject—on *any* subject. Like you may always drink buttermilk with *your* meals ... while a glass of beer's the "automatic" choice with me.

Do you personally know your children's teachers?

VISIT YOUR SCHOOLS
during
AMERICAN EDUCATION WEEK
NOVEMBER 6-12

Isn't it natural to want to spend a little time with the people who spend most of *their* time with your children? Isn't a *first-hand* knowledge of your schools worth while? Especially in these difficult years of swiftly rising enrollments—when teachers, principals, and school boards deserve the active interest and support of every citizen.

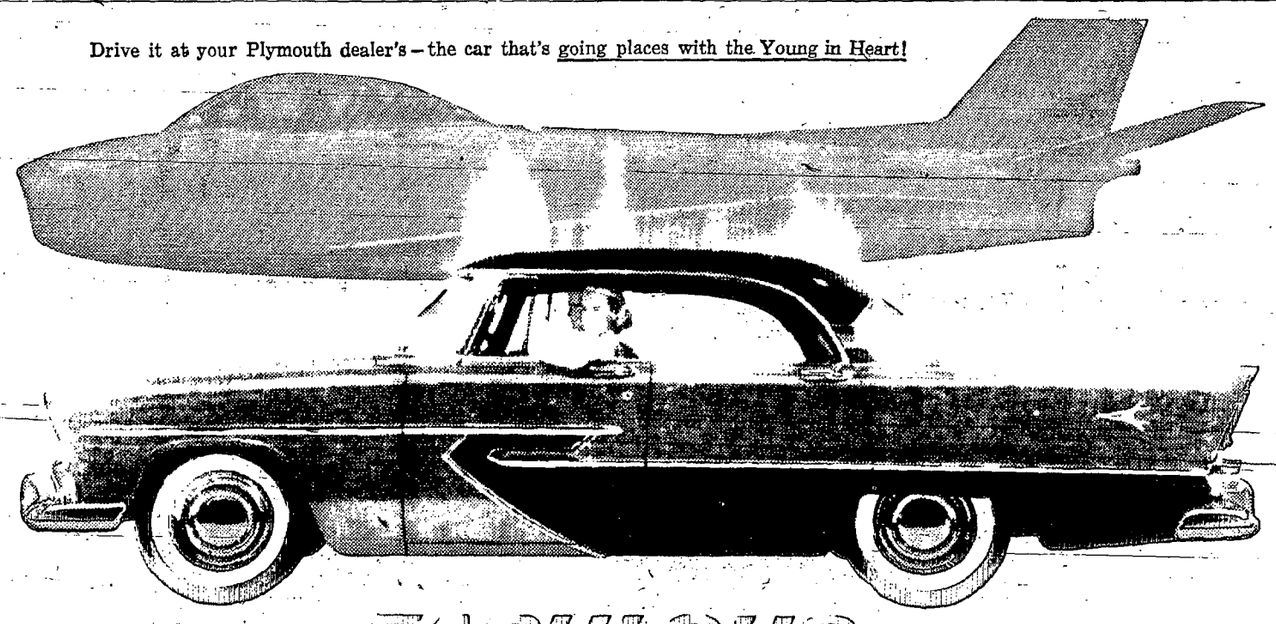

One of the best ways to learn about schools—their programs and their problems—is through local community conferences on education. If one is held in your community during American Education Week, be sure to attend. The work you do for better schools is *your investment in America.*

American Education Week has become an annual community custom across the nation. This year, the 35th annual observance, some 20 million Americans will visit their local schools during the second week in November. Shall we see you then?

CARS are my Line

by ART GOODRICH

When you buy a car, even one of the low priced cars on our used car lot, it will probably be your largest investment outside of your home, if you own your own home. If you don't, then you will have more money invested in your car than in anything else.

That's why it pays to know something about cars, more for instance, than the lady who was driving along the highway last summer in one of those European cars with the engine in the back and the luggage compartment where the engine usually is.

She was purring along when suddenly the car stalled and she had to pull over on the shoulder. She got out, raised the hood and shrieked so you could have heard it two concessions away. "My stars, I've lost the engine!"

Fortunately, another woman was on the highway in the same kind of car and when she noticed the stranded lady she pulled up to help a fellow-owner.

"I seem to have lost my engine," explained the stranded one.

"Well, this is lucky," said the Good Samaritan. "I just happened to look in our trunk today and I noticed we have a spare engine in there."

You probably know more about cars than the stranded lady, but if you don't we'll tell you frankly what our cars have and what they haven't in language you won't need a dictionary to translate.

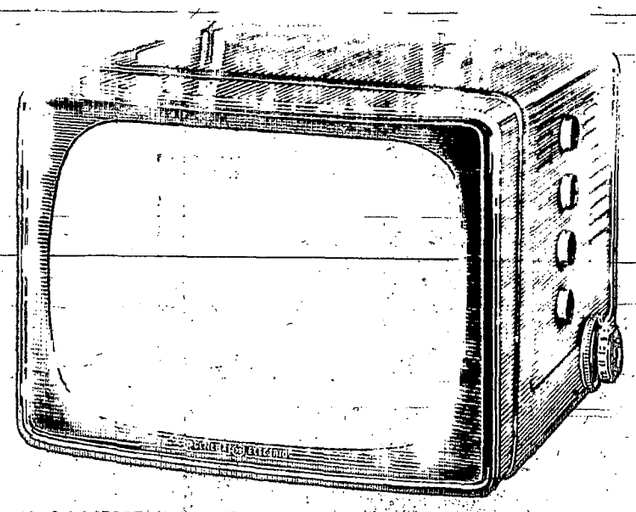

We want you to know exactly what you're buying because you're making your largest, or second largest, investment in comfort, satisfaction and convenience. There is no purchase that can bring more happiness than a good, neat car. But a car that takes you through the wringer by depreciating faster than it should isn't going to improve your temper or our good name. That's why we want you to look under the hood, into the trunk, everywhere you want. Read test the car, too.

Now that Ed Gierke has become our service station manager, he wanted me to tell you folks that the service station is open from 7 a. m. to 9 p. m. six days a week and on Sunday from 8 a. m. to 8 p. m. Drive in! Ed is always happy to be of service to you.
